Non-narcotic analgesics	14	\$ 11,161	3.6	\$ 10,472	7.9	\$ 9,138	3.1	\$ 8,755	5.9	\$ 8,138	2.4
Narcotic analgesics	15	\$ 10,606	8.8	\$ 9,608	13.2	\$ 8,287	-2.2	\$ 8,435	2.9	\$ 8,188	13.9

US\$: Sales and rank are in US\$ with quarterly exchange rates

LC\$: Growth is in constant \$ to normalize for exchange rate fluctuations

Growth rates in US\$ are not recommended due to extreme fluctuations in the value of the dollar

Therapy classes are defined as:

Oncologics L1 & L2

Lipid Regulators C10A & C10C

Respiratory Agents R3

Antidiabetics A10B, A10C, A10X

Acid Pump Inhibitors A2B2

Angiotensin II Antagonists C9C & C9D

Antipsychotics N5A

Antidepressants N6A

Anti-epileptics N3A

Autoimmune agents M1C & Remicade (from L4A)

Platelet Aggr. Inhibitors B1C

HIV Antivirals J5C

Erythropoietins B3C

Non-narcotic analgesics N2B

Narcotic analgesics N2A
